Product Description

Fitur 2019>>
International fair of tourism

The international tourism fair, **Fitur**, held annually at the Ifema-Feria de Madrid, has become **one of the largest tourism fairs in the world** and the number 1 in the Iberian Peninsula. In so-called national pavilions, the particularities of the regions are presented to visitors to the fair, mainly composed of decision makers in the tourism industry, such as travel agencies and tourism associations.
The trade fair is expanding its exhibition area to incorporate Pavilion 2, which will be the showcase for Tourist Destinations in the Middle East, as well as venturing further into segmentation with a new section specifically geared toward film tourism.
One of the main areas of focus at **FITUR 2019** will be knowledge and know-how, best represented through its program of seminars and activities, organised in partnership with major national and international entities in the tourism sector.

IFEMA has already begun work on marketing and content design for **FITUR 2019,** the major international tourism event. As always, in their endeavor to adapt it to the needs and development of the industry, it will incorporate important new aspects. These include its timing – 23 to 27 January 2019 – which will again position FITUR in the last week of January, strengthening its capacity to attract professionals from all over the world.
